

Rockhampton Benevolent Home

Client: *Rockhampton Benevolent Home Society*

Construction completed: *December 2007*

Construction costs: *\$2 million*

Woollam Constructions have been successfully working with the Benevolent Home Society for a number of years. The most recent project was a single-storey 16 bed special care building of modern architecture, specifically designed to incorporate a home-like environment for the needs and care of the aged.

A soft colour palette was used, with complimentary furnishings added by the committee, making all residents feel at ease in this restful environment.

Winner QMBA Project: Central Queensland Health Facilities (\$1-\$5m) 2002, Central Queensland Project of the Year 2002, and State Health Facilities (\$1-\$5m) 2002.

BRISBANE ROCKHAMPTON MACKAY BALLINA

Client Comment: *“Rockhampton Benevolent Home retained Woollam Constructions to complete two major capital works projects, totally approximately \$8 million.*

Woollam’s won the tenders as they were reputable local builders that had the professionalism and management skills to ensure the projects ran smoothly and were completed to a high standard. Communication throughout the project was excellent and all variations were authorised. Building defects had been minimal and quickly addressed.

We would definitely be keen to maintain a working relationship in the event of future capital works.”
