

## public facility

## Boyne Island Crematorium

**Client:** Gladstone Regional Council

**Construction completed:** April 2006

**Construction costs:** \$2.6 million

The Boyne Island Crematorium complex consists of a chapel, tea pavilion, crematorium building and administration centre.

Numerous complex and individual finishes as well as innovative use of materials and colours have been used to blend the new buildings into the natural surroundings providing an outstanding and truly unique community facility.

**Client Comment:** "The Crematorium Project was completed on schedule and within the pre-arranged budget parameters. The level of professionalism, standards of workmanship and flexibility were second to none.

We have nothing but praise for all the levels of management and staff involved in the process. The building designs posed numerous technical difficulties, all of which were addressed efficiently and effectively.

The complex has received wide community acclaim and recognition. Woollam's participation has played a major part in the overall success of the project."

Jeff Kidner, Director of Parks and Recreation  
Gladstone Regional Council
