

## Numylo, Toowoomba

**Client:** Churches of Christ Care

**Construction completed:** 2003

**Construction costs:** \$5.4 million

Numylo residential aged care facility provided an opportunity to rethink the way care was to be delivered to the residents of this facility. A mountain retreat theme was adopted to create a sense of place where a resident can live in the privacy of their own suite or enjoy the communal facilities. The architect's design included a diverse range of spaces and a rich palette of materials. Woollams were able to deliver this sophisticated vision for an aged care complex on time and within budget.

**Client Comment:** "Numylo is not just an aged care facility; it's our residents' home. We wanted to create a resort-style facility where there was distinction between public and private spaces; where residents could feel comfortable in their own private space, yet have access to a range of communal facilities including a coffee shop, hairdresser, spa room and club room. With the help of Woollam Constructions, we were able to achieve this at Numylo Aged Care Facility."
